INDIGO The Movie; Local Church Hosts World Premiere Event

Kerrville –Unity Church of the Hill Country, in partnership with the Texas Heritage Music Foundation (THMF), is pleased to announce its participation in the world premiere event of INDIGO.

On Saturday, January 29, more than 500 churches and organizations in 49 states, 35 countries, on 6 continents will host the premiere of INDIGO. Directed by Stephen Simon (who produced “Somewhere in Time” and “What Dreams May Come”), this entertaining independent film is based on an interest in the growing numbers of children born around the world who exhibit unusual and special gifts such as deep compassion, perception, healing, and verbalizing the wish for world peace. Some call these the “Indigo” children.

“This is exactly the type of meaningful entertainment we believe in and we are thrilled to be able to present this exclusive screening in Kerrville,” says Patty Edwards, minister of Unity Church of the Hill Country. “We invite each viewer to measure the message of this film against his or her own understanding of truth, and to participate in a group discussion afterwards about this cutting-edge and thought-provoking movie.”

There will be two showings, one on Saturday, January 29 at 7:00 p.m. and one on Sunday, January 30 at 3:00 p.m. Both showings will take place in the theater of the Cailloux Student Center on the campus of Schreiner University.

Before each showing, the duo “Butterfly Sky” will perform some of their moving and melodic compositions. The husband-wife duo are currently touring this part of Texas and “the timing was perfect,” says Kathleen Hudson, director of the THMF. “We’re glad they can be here in Kerrville to enhance this special program.”

Tickets are \$10.00 and may be purchased through Unity Church of the Hill Country. Call 896-7575, or e-mail unityjoy@ktc.com for information. Call soon; seating is limited.
